

When will my FOGO bin be collected?

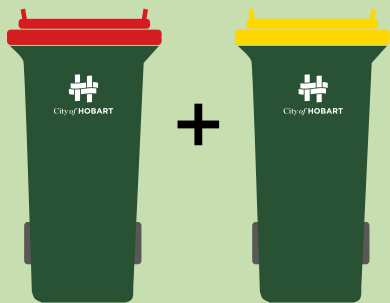

Every fortnight on the opposite week to recycling. If you already have a green bin for garden organics, continue to put your bin out on the same day as per your usual schedule. Kerbside waste and recycling services will remain unchanged.

You will put two bins out for collection every week.

What is FOGO?

FOGO stands for Food Organics and Garden Organics. The introduction of FOGO means that from the 11th of November 2019 you can place food scraps as well as garden waste in your green lidded organics bin.

Who gets a FOGO bin?

Residents who have an existing green waste service automatically receive a kitchen caddy and can start to place food waste as well as the usual garden organics in their 240L green-lidded organics bin. Residents who don't already have a green lidded organics bin/service can opt into FOGO by completing an application form found at: hobartcity.com.au/FOGO

How much does FOGO bin collection cost?

\$60 per year.

Can I use bin liners?

To reduce the risk of contamination it is preferred that FOGO users put their scraps in loose. All FOGO service recipients receive a kitchen caddy to put their food scraps in which can then be transferred directly into the 240L FOGO wheelee bin. Plastic bin liners contaminate loads. Residents can use a piece of paper towel to line their kitchen caddy or can fold a purpose made liner from newspaper. Instructions for folding a newspaper liner can be found at hobartcity.com.au/FOGO

It is strongly preferred that residents opt for no liners or use paper. However if you wish to use a bioplastic liner it must be certified compostable under one of the following certifications: AS 5810, AS 4736, ASTM D6400, and EN13432.

Include

- ✓ Food scraps & left overs
- ✓ Dairy products
- ✓ Meat, bones & egg shells
- ✓ Cooked food
- ✓ Coffee grounds & tea leaves
- ✓ Paper towel & tissues
- ✓ Soiled paper & cardboard
