

Urban Sustainability Grant Guideline

This guideline outlines the application process eligibility and assessment criteria for the Urban Sustainability Grant.

OVERVIEW

Climate change is impacting Hobart now. We each have a responsibility to reduce emissions and be prepared for the more frequent and severe climate-driven impacts.

The [Climate Ready Hobart Strategy](#) is a guide to what the City of Hobart and the community can do together to respond to the climate and biodiversity emergency as we move towards 2040.

This grant gives the community the opportunity to develop solutions for a climate ready and sustainable future for Hobart.

WHAT CAN YOU APPLY FOR?

The Urban Sustainability Grant supports community-led projects that contribute to climate change and sustainability issues.

Projects should have one or more of the following outcomes to contribute to a zero emissions and climate ready Hobart:

- Reduce waste to landfill through diverting organics from general waste and resource recovery.
- Promote replacing petrol, diesel and gas with electric and energy efficient alternatives.
- Encourage people to choose low emissions transport choices such as walking, riding and public transport.
- Support local biodiversity projects and nature restoration or sustainable community food gardens.
- Improve understanding of climate adaptation as well as preparedness for disasters and extreme events.

- Contributes to a more connected and cohesive Hobart.

Applicants are encouraged to identify how the activity supports the [Climate Ready Hobart Strategy](#).
